

Supply chain management Reliable supplier of goods for **NGOs** 

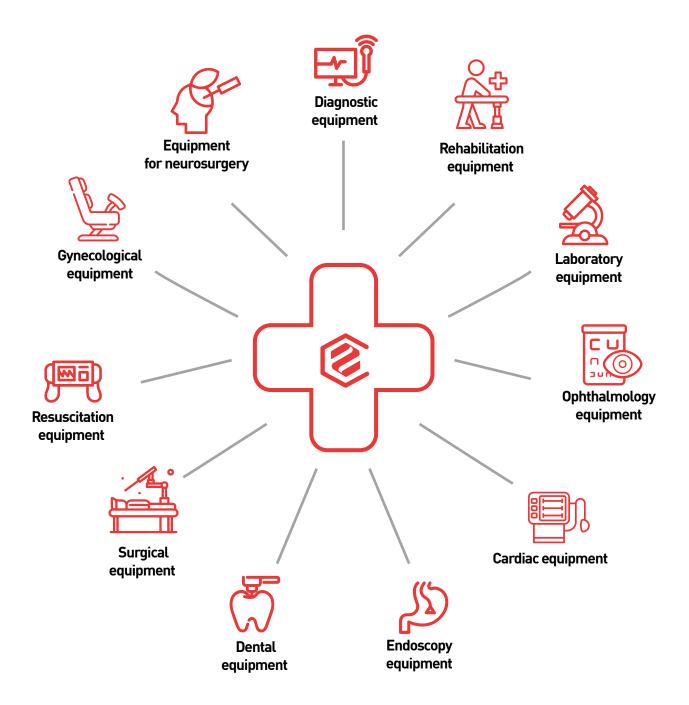

# Products and services

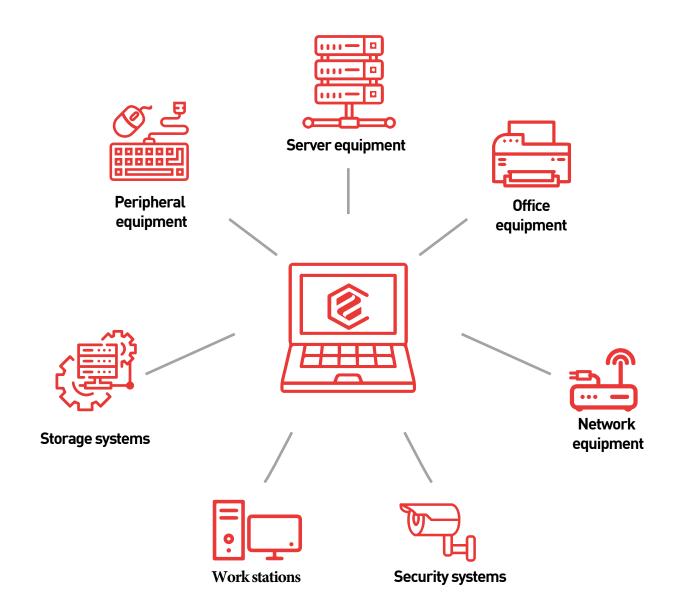

#### The company offers a wide range of products, including:

### MEDICAL EQUIPMENT

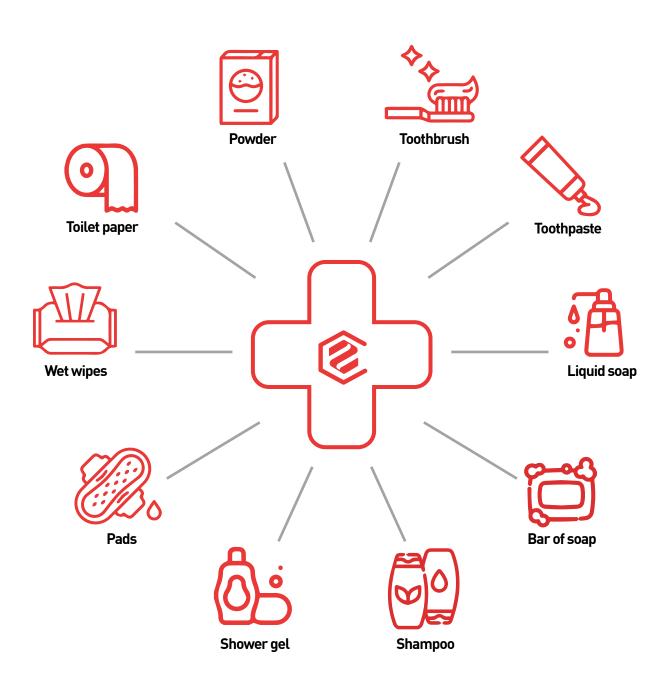

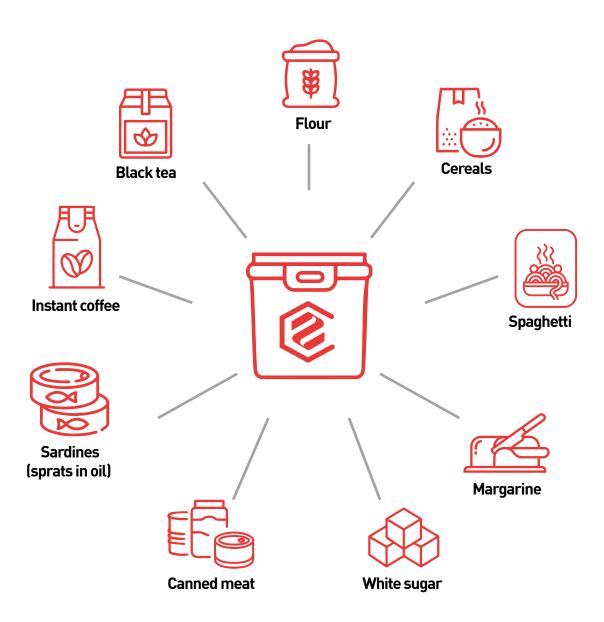

### BASIC NECESSITIES

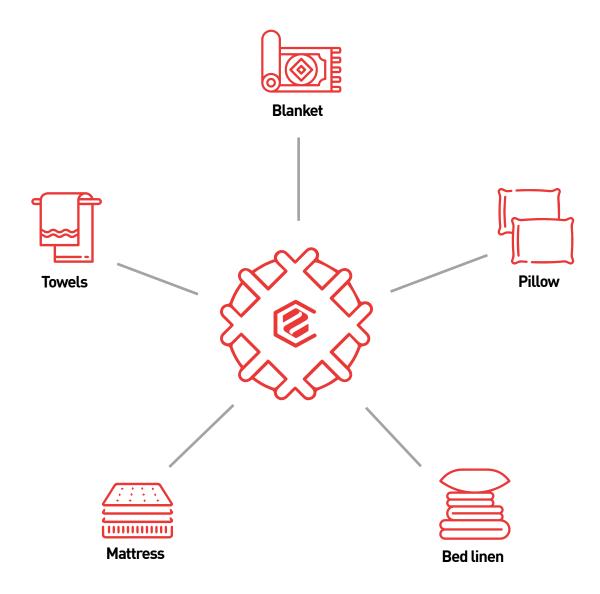

Aidetics provides high-quality, reliable logistics and supply solutions to international and local humanitarian organizations and communities, backed by a wide range of products and partnerships with leading international organizations.

**SUPPORT 24/7** 

**INNOVATIONS** 

**LOCAL COMPANY** 

**EXPERIENCE** 

We combine global resources and local knowledge to provide comprehensive supply chain and logistics solutions to our partners in the humanitarian sector.

By maintaining world-class standards in every delivery, we are proud to work hand-in-hand with leading international organizations to ensure the reliability and quality you need to make your missions and projects successful.

### MISSION AND VALUES

Our mission is to create sustainable supply chains and logistics solutions that contribute to global humanitarian relief efforts, support community development, and help improve the lives of people around the world.

We strive to be a reliable partner for all our customers, e nsuring timely and safe deliveries

#### **COOPERATION**

We work in close partnership with NGOs, government organizations and the private sector to achieve common goals

#### **INNOVATIONS**

Utilizing advanced technologies and techniques to continuously improve our services and operations

#### **SOCIAL RESPONSIBILITY**

Our activities are guided by social responsibility and the desire to have a positive impact on society

#### **PLACING ORDERS**

The process begins when a customer places an order for goods through various channels, such as a website, phone, or in person through a manager.

#### INVENTORY MANAGEMENT

Inventory management involves monitoring inventory levels, replenishing goods as needed, and preventing overproduction. This ensures a balance between demand and supply.

#### PLACING AND STORING ORDERS

Goods are stored in warehouses or distribution centers. Proper organization, storage and retrieval processes ensure effective inventory management.

#### **TRANSPORTATION**

Select the appropriate modes of transportation (road, rail, air, sea) based on factors such as distance, cost, and speed.

### OUR PROJECT ACTIVITY

# We use branded packaging in all projects.

# Our specialists carefully check each product before shipping.

# We make sure that each product arrives safe and sound.
